

INTERNATIONAL ECONOMIC FORUM OF  
**COMMERCE AND INDUSTRY**

## **MEDIATION**

Mediation is a negotiated settlement, conducted and concluded with the assistance of a neutral third-party. The process is voluntary and does not lead to a binding decision, enforceable.

Most commercial disputes, in which it is not imperative that there should be a binding and enforceable decision, are amenable to mediation. Mediation may be particularly suitable where the parties in dispute hope to preserve, or to renew, their commercial relationships.
